**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kyle Way on May 14, 2004.

The application has been amended as follows:

On Claim 1, Line 6, change "a intervening connector" to – an intervening connector--.

***Allowable Subject Matter***

2. Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance:

The references fail to teach, disclose, or suggest, either alone or in combination, the electrical circuit substrate having a proximate end being coupled via solder directly to the target circuit board in the absence of an intervening connector and in combination with the rest of the limitations of the base claim.

The Examiner is convinced by Applicant's arguments (Pages 5-10) regarding the combination of the Hudson, Jr., Leman and Webster et al. references specifically not showing the limitations of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
